

# Information literacy skills within the phases of Design Based Education

## Questions

### For every phase of DBE

- What tools are there to find information? Think of library, search engines, AI tools, toolbox information literacy skills, databases, etc.
- Do I have the skills to search in different search systems? Think of word combinations, quotation marks, and Boolean operators, etc.
- Which information sources belong to my field? Think of trade journals, professional knowledge platforms, public sources, etc.
- Which information sources are reliable? Think of topicality, relevance, authority, accuracy and purpose.
- How do I present the acquired knowledge? Think of quote, paraphrase and summarize.
- How do I create a reference list of the sources I have used?
- How do I refer to sources in my report?
